Apple/Panavision Canon 5D Mk II Masterclass

Recently, Jemore Santos and Nic Godoy from Panavision Digital Marketing and James Bilich from Panavision Operations held a Canon 5D Mk II Masterclass at the Apple Flagship store in Sydney.

The information session was headed by Jemore and offered the audience in depth information on the camera, the rigs and the workflows.

There was a great turn out with more than 40 guests attending. Amongst these guests were some notable DP's such as Hugh Miller, Simon Chapman, Matthew Horrex and Denson Baker showing their support for this revolutionary camera. With budgets getting smaller and directors wanting to evaluate viable alternatives, more and more shoots are turning toward this camera with great results!

Panavision can also supply the hand held grip assembly and 8.9" HDMI onboard monitor to complete this impressive kit.

Panavision's 5D Mk II kit includes the:

- 5D Mk II body
- 16-35, 24-70 and 70-200 L Series F2.8 lenses
- timer remote
- 2 x 16gb cards
